**Invenergy Secures Wind Turbines for 2007 and 2008  
North American Projects  
*Contracts with General Electric for 1,200 MW***

CHICAGO – May 1, 2007 -- Invenergy Wind LLC announced that it has contracts with General Electric Company (“GE”) to purchase an additional 600 MW of wind turbines for use in projects slated for construction in 2008. Along with Invenergy’s previously announced purchase of 600 MW for 2007 from GE, this provides 1,200 MW of wind turbines for Invenergy’s 2007 and 2008 build program in North America. These turbines are slated for Invenergy’s projects in the US and Canada.

Over the past three years, Invenergy has developed and constructed more than 680 MW of wind energy facilities with capital costs of \$1.1 billion. This includes projects in Colorado, Montana, Idaho, Tennessee, Iowa, Oklahoma, Texas and Invenergy’s first European project, the 50 MW Tymien project in Poland which went into commercial operation in 2006.

Wind energy projects completed by Invenergy in North America and Europe to date are expected to generate more than two billion kilowatt hours of electricity per year with clean and renewable generation technology.

**About Invenergy Wind LLC**

Invenergy Wind LLC is a subsidiary of Invenergy LLC, a developer, owner and operator of utility-scale electricity generating facilities including wind energy and natural gas-fired projects. The company has comprehensive expertise in the development, financing, construction, operation and management of power generation projects serving a wide range of utilities, load serving entities and industrials. The members of Invenergy’s senior management team have extensive experience in diverse areas of the energy market and a track record of resounding success at Invenergy and in their prior business entities.

Invenergy is headquartered in Chicago and has professional staff located in its North American offices in Denver, Washington D.C, Toronto, Milwaukee, Tampa, and Austin, Texas. Overseas offices are located in London (UK), Warsaw (Poland) and Athens (Greece).
