Invenergy Completes Financing for its Stanton Wind Energy Facility in Martin County, Texas

CHICAGO – November 2, 2007 – Invenergy Wind LLC (“Invenergy”) announced the successful closing of construction and equity financing for its 120 MW Stanton Wind Energy Center (“Stanton”) in Martin County, Texas. The debt facility was underwritten by lead arranger Dexia Credit Local and co-arranger Natixis. The equity will be provided by GE Energy Financial Services.

Invenergy acquired Stanton from Wind Tex Energy, L.P., who had completed the initial development work on the project. Strong support from officials with Martin County, and the Stanton and Grady Independent School Districts was instrumental in helping the project move forward on a fast track basis.

Stanton will utilize 80 General Electric 1.5MW SLE wind turbines and construction is being managed by DH Blattner & Sons. Full commercial operation of the wind farm is scheduled for early 2008. The project interconnects with Oncor, the transmission affiliate of TXU, and all power will be sold into the ERCOT market. Energy price risk is hedged through a long-term agreement with Credit Suisse Energy. The wind farm will be owned and operated by Invenergy.

About Invenergy Wind LLC

Chicago-based Invenergy Wind LLC is an affiliate of Invenergy LLC, a developer, owner and operator of utility-scale electricity generating facilities including wind energy and natural gas-fired projects. Invenergy Wind currently has 12 facilities representing more than 1,300 megawatts of wind energy projects in operation and construction in the US and Europe. Wind energy projects completed and under construction by Invenergy Wind are expected to generate more than 3.6 billion kilowatt hours of electricity per year with clean and renewable generation technology, enough to power almost 400,000 homes.

Invenergy is headquartered in Chicago and has North American offices in Denver, Washington D.C., Toronto, Milwaukee, Tampa, San Francisco and Austin, Texas. Overseas offices are located in London, Warsaw, Budapest and Athens.
